YELLOWSTONE NATIONAL PARK. The Yellowstone National Park is a tract of ground selected by congress as a national public park, on account of its natural grandeur and beauty of scenery. It is 62 miles from north to south and 54 from east to west, comprising 3,312 square miles, all of which is more than 7,000 feet above the level of the sea. It lies partly in Montana and partly in Wyoming, with a narrow strip in Idaho, and is reached by the N P Ry, which has a branch line running from Livingston to the northern entrance of the park. The Yellowstone Lake, which lies in the center of this wonderful and picturesque locality, has an altitude of 7,721 feet. Mountain ranges that hem the valley on every side rise to the height of from 10,000 to 12,000 feet, and are always covered with snow. The entire region has recently been the scene of remarkable volcanic activity, the last stages of which are still visible in the hot springs and geysers. In this the Park surpasses all the rest of the world. There are probably 50 geysers which throw a column of water from a height of 30 to 250 feet and perhaps 4,000 springs which deposit lime and silica. There is every variety of color in these deposits, which ornament the borders most elaborately. The temperature is from 160 to 200 degrees. The chief points of interest in the Park are the Mammoth Hot Springs, Norris Geyser Basin, Lower, Middle and Upper Geyser Basins, Yellowstone Lake and the Grand Canyon and Great Falls. In and about the Park are the sources of the Yellowstone, the Columbia, and the principal forks of the Missouri rivers, while just to the south rises the Green river. The N P Ry, during the Park season, carries Pullman sleeping cars to and from the Park boundary from both eastern and western terminals, for the special accommodation of Park travel. The season extends from June 1st to September 20th. For a complete description of the Park and full information, address A M Cleland, General Passenger Agent, N P Ry, St Paul, Minn.

# Wayne

## One of our 1906 Models

**Wayne Model H, \$800. Two Passenger Runabout.**

**MOTOR**, 2-cylinder opposed under hood. Cylinders  $4\frac{1}{2} \times 4$ , developing 14 H. P., water-cooled. **TRANSMISSION**, planetary gears, with **DIRECT BEVEL GEAR DRIVE**. Control is by a single lever, which engages the high speed clutch and reverse. The brake and slow speed are controlled by foot pedals. **WHEELS**, 28 x 3. **EQUIPMENT**, complete set of tools.

The strong features of this car are the extreme simplicity of the engine and transmission. The crank case and transmission case form one casting, and the entire engine can be taken apart or assembled in half an hour.

MODEL G, Chassis, same as Model H, except 30 x 3½ Wheels. Double side entrance tonneau.....	Price \$1,000
MODEL F, 4 cylinder car, cylinders 5½ x 5, 50 H. P. Seating 7 people.....	Price \$3,500
MODEL K, 4 cylinder, 5 passenger touring car, 35 H. P. Sliding gear transmission.....	Price \$2,500
MODEL B, 4 cylinder, 5 passenger car, 24-28 H. P. Sliding gear transmission.....	Price \$2,000
MODEL C, 5 passenger car. Double opposed motor, 20 H. P. Planetary transmission.....	Price \$1,250

## BEE KEEPERS!

**INSIST** when buying your supplies on getting goods bearing this trade mark. Root's goods are the best. They are well made from good material. You are never disappointed and disgusted by receiving goods inaccurately cut and roughly made from inferior stock. The accuracy with which Root's goods are made allows a customer to order goods year after year, and each lot will fit the others as new parts fit in repairing an Elgin watch.

**COST.** No goods of like quality are sold at lower prices than we sell them, while the shipping of them in car lots to our branch houses allows our customers to get them at factory prices within a short distance of home. With our immense manufacturing facilities, adoption of standard goods, and our northwestern branch house, we can get supplies to you with wonderful promptness.

**BEES AND QUEENS.** Near St. Paul we have an apiary in charge of our manager from which you can obtain the best of queens and bees at reasonable prices. You should give our superior stock a trial. An investment of \$1.20 will secure a copy of our book.

**A B C OF BEE CULTURE.** This book was written for the beginner, and fully meets the requirements. Our semi-monthly magazine, "GLEANINGS IN BEE CULTURE," is a constant appendix to the A B C of Bee Culture. It costs \$1.00 a year. We club the two for \$2.00 postpaid to any point in the United States.

# STEAM BOILERS

Cannot be operated safely, or economically, when the sheets and tubes are covered with scale and mud. The cost of operating a dirty boiler is enormous. The cost of cleaning a dirty boiler and keeping it clean is very small if MINNESOTA BOILER COMPOUND is used.

**RESULTS GUARANTEED**--It contains no free acids, animal or vegetable oils, and therefore can be used with safety in any boiler. Prevents corrosion, which causes pitting and destruction of flues and sheets. Stops water from foaming in boilers. Acts as a lubricant, and valves work more freely after use. For threshing engines it has proven a success in hundreds of boilers throughout the west. Special attention is given to hot water and steam heating plants. MINNESOTA BOILER COMPOUND will prolong the life of any boiler, save its cost in repairs and many times its cost in fuel. Don't take our word, but send for circulars and read what hundreds have to say about MINNESOTA BOILER COMPOUND. Results guaranteed. Factory: 271 Nugent St. Office: 305 Bradley Bldg. 15 Years' Experience

The Childrens' Home of Duluth, next to the natural home is the best home for children. The minutest care is given every detail, and everything that will contribute to the welfare of children. The sanitary arrangements are the best, and the children are given all the care that will conduce to health, comfort and strengthening of character, for a modest charge.—New and modern building with large playgrounds and near schools. ## Remarkable Cures made by this New and Wonderful Science.

### Read what Cures say of us.

Mary Soli, living at 82 E. Phalen St., St. Paul, Minn., was hurt over three years ago. As a result, she lost the use of both limbs and was unable to walk. She was taken to the city hospital, where she was treated for three years before coming to us. OTHER DOCTORS after employing every known remedy, gave her up as incurable. Her trouble lay in her spine, as does every one's who ails in any way; but few people realize this fact. The little girl, however, was completely cured in five weeks at the National Chiropractic and Electrical Institute, 403 Phoenix building. Any one wishing further details may call at the child's home, 82 E. Phalen St. We have hundreds of other living testimonials in St. Paul and vicinity who have been completely cured by us and dozens of them previous to coming to us were given up as incurable by other doctors.

"Kidney trouble, rheumatism, partial blindness of one eye and rupture. Age 77 years. Hadn't worked for nearly two years; power of both arms lost after two weeks' treatment went to work as carpenter. Would have been dead by this time. Entirely cured and well now. A wonderful recovery." R. DONAHUE, 284 Williams St., St. Paul.

"Heart disease of many years and bad cataract of eye completely cured in three weeks." CARL ANDERSON, Brown's Valley, Minn.

Women affected with ailments peculiar to their sex can find a permanent and speedy cure from a few treatments by us.

If you are ailing in any way you will do well by calling on us before going elsewhere and be examined free. We can locate your trouble at once.

PROF. E. C. REITZ.

Prof. E. C. Reitz is the owner of the finest Business College Building in the great West. It is the most elaborately furnished business training school in America. Come and see for yourself or write for full information. It is organized as a strictly business training school. It teaches up-to-date, modern and progressive business methods, with twentieth century ideas. A live school for the training of live business men and women. Thorough instruction in all commercial branches, stenography and typewriting, etc. A school of actual business from Start to Finish. Terms reasonable. See other side of page for more definite information. Watch the Garden City Commercial College of Missoula, Montana, grow.

This Beautiful Building is the Home of the Garden City Commercial College. It is Owned and Occupied Exclusively for College Purposes.

### SEARCH THE GREAT WEST.

Look into every city and town between the Mississippi and the Pacific—you'll not find a business college, devoted exclusively to teaching commercial branches, as complete nor as resultful in its work as is the Garden City Commercial College.

You may quite naturally inquire why Missoula, Montana, possesses such a great institution and so magnificently successful.

Let us tell you.

Twelve years ago this location was chosen, primarily because of its superior healthfulness. No town in the state nor throughout the entire Northwest has as pure air as is found in Missoula, and none is more free from objectionable features.

This institution was started and has been maintained, with one object in view—to make it the best business school in the United States—to equip our students more thoroughly than they could be equipped elsewhere.

With this end in view we have devoted our entire time and attention to commercial branches. We have specialized—we have taught and are teaching—the things business men and business women should know, and must know—taught them better than any other school teaches them.

The result is a class of graduates of which the West is proud—young men and young women who have already climbed high on the ladder of success—who have already grasped some of the richest prizes of life and are at the head of their profession in business, in railroading, in farming, in politics and in various other occupations.

The marvellous growth of our school and its steadily increasing popularity has made it necessary for us to erect a New Building, at a cost of \$25,000.00. This is owned and occupied entirely by our school. No other business college in the West owned and occupied a building of equal size and equal facilities. The most modern improvements, the finest appointments are being enjoyed by our students. This school has the best equipments and gives the best instructions in a business and shorthand education of any other school in the country. There is no question about it. Here is the place to prepare for the battle of life. We know we can fit you for a successful career in your chosen field. We know we can do it better than it can possibly be done elsewhere.

Ask for our illustrated prospectus "E" and Fall Announcement, giving full information. It is Free. Write today for a copy.

## TWIN CITY CUTTING SCHOOL

HENNEPIN AVENUE

Cor. 8th St.

Minneapolis, Minn.

This school ranks higher and has greater facilities for instruction than any other school in the world. Our Cutting, Fitting and Work Rooms cover a floor space of 4500 square feet. We cut, trim and make high grade garments for the Custom Tailoring Trade only. Our office, Library and Reception Rooms are in connection with the publishing department of the TWIN CITY FASHION JOURNAL edited by the Principal of this school.

The above cut represents the Gerber Pat. Flexible Chain Telescope Car Loading Spout. The only spout from which a joint can be removed when worn out and another put in its place easily without disturbing either end. Swivel Joint at S.

# THE GERBER

## No. 2 Improved Distributing Spout

Is a winner, and the leading spout on the market to-day. It is simple in construction, durable, and will prevent mixing grain.

We Call the Attention of Land-Seekers to an Unusual Opportunity

which we offer to men of small means to acquire homes of their own. We offer for sale on extremely liberal terms in the most fertile portions of Minnesota and the Dakotas.

Improved Farms and Wild Lands on the Crop-Payment Plan and on the Ten-Year Installment Plan. Interest only 6 per cent.

We require a cash payment of only one-fifth, balance to be paid by giving us one-half the crop each year, or in ten equal annual installments.

We shall be pleased to send you our lists of lands giving detailed information concerning each particular tract, and any other information you may desire, on application. We are also able to secure very low rates of transportation for the actual land seeker, his family and movables, and will apply the purchaser's railroad fare on the purchase price. Address as above.

## WHOLESALE AND RETAIL

We own large tracts of choice land in central Wisconsin, where the soil is excellent, in a thickly settled and well developed country, and fine Townships, Sections and Quarters in the Dakotas and Canada. Also Pacific Coast Timber Lands.
